OBJECTIVE

A highly motivated and detail-oriented computer science graduate seeking a challenging role in software development to leverage my skills in coding, problem-solving, and teamwork to contribute to organizational success.

SKILLS & ABILITIES

Technical skills

HTML, CSS, JavaScript, Python, React, SQL, MongoDB, C, C++, JAVA, MCSE, ROBOTICS, CCNA, COMPTIA A+ N+, DSA, NETWORKING, Database management

Soft skills

Teamwork, Time Management, Leadership, Problem-Solving

PROJECT

Portfolio

My portfolio showcases my expertise in web development, graphic design, and creative problem-solving.

BMI

Developed a **BMI (Body Mass Index) Calculator** to calculate the BMI based on user input (weight and height). This project enhances understanding of body health while demonstrating proficiency in front-end development.

COMMUNICATION

Strong communication skills, including effective verbal and written communication, active listening, and empathy.
